

COLLEGE BOARD SAT

Instructions on How to Send SAT Scores

To send your scores to CUNY Schools:

Once you have clicked on send scores, you can put CUNY in the search (along with New York, everything else can stay blank) and then scroll down to the bottom of the list. You will see CUNY UAPC, click on it and then click add. The CUNY UAPC (University Application Processing Center) code is 2950. CUNY UAPC will forward your SAT score report to each college on your CUNY list.

If you are applying to **Private schools and/or SUNY schools** please remember that you must send your scores to those schools via CollegeBoard. You will need to search the name of the school (and for Private schools I would recommend you also put the state where it is located in the search as well.

Finally, If you have a fee waiver then you can send scores for free, you will see this is automatically in your account. If you do not have a waiver then the cost is \$12 per score report sent.
